to speak please turn your lights off. I'm having trouble keeping track of who is talking and who is not. Senator Whitney.

SENATOR WHITNEY: Mr. President, I agree with Senator Proud the Speaker, this body has accepted the Omaha invitation and I'm sorry that I couldn't do it and I made an engagement for that Tuesday to try to help another governmental unit out on that Tuesday so I couldn't be here but it seems to me that once we make our minds up we should do it. Not keep changing our minds all of the time so I whole heartedly support Senator Proud.

PRESIDENT: Alright, Senator Stull.

SENATOR STULL: Mr. President, members of the legislature it seems to me that we could....if we decided to adopt the right hand column of the Burbach proposal then we could we would be in session Monday and we could even work Monday evening if necessary and then come on Tuesday at 8:00 in the morning and still accept the invitation of the Omaha Chamber of Commerce. I would move that as an amendment to the Burbach motion.

PRESIDENT: Lets seperate them. You want to.....

SENATOR STULL: Mr. President I think that we would have to decide which way we are going on the Burbach motion first and then we could amend it after we decide.

PRESIDENT: Lets do that. Alright, we still have the Burbach motion before us which is to decline the invitation and then go to the center and right hand column sheet schedule that has been put before you. Senator Waldron, did you wish to be heard on the issue.

SENATOR WALDRON: Mr. Chairman, members of the legislature, it amazes me sometimes as to why we can't arrive at a collective decision here when it is very simple to do so. There is no reason for us to decline the Omaha invitation because if you want a last day on General File we might run late Senators all we have to do is take off all day Tuesday so that it will not count against us and then meet on Wednesday for our last day of General file and run as late as we want too. Then we can come back and Saturday morning, that Saturday and meet for 15-20 minutes to get in that legislative day and we will accomplish the same purpose. It is very discouraging here at times that it doesn't seem to be that people can see what the possibilities are. Even then after the 83rd Legislative day on the 84th Legislative day we could take up some General File, because what Mr. Burnett has probably pointed out to you he could not take a lot of work on the 84th day to get off to the E & R but he could take a few bills, if there are some real essential bills you know that he has worked....he has....we have gone from General File to Final Reading in a very brief period of time on some bills in the past session. So I don't think....we could always handle a few on the 84th Legislative day, but we are willing to come back here on Saturday morning for just a few minutes, those that are still in time and there will be a number of those, we could meet for a few mintues and take up, you know, like E & R and things like that and there would be no problem, we could then take off all day Tuesday. Sometimes I just can't understand why we take so long to discuss something that there is relatively few choices and they are very simple to make.

PRESIDENT: Senator Stahmer, do you want to be heard on the issue?

SENATOR STAHMER: I would only like to point out to Senator Syas that the original Proud plan allowed for up to the 85th day and it was drawn by Emory Burnett.
